MDX

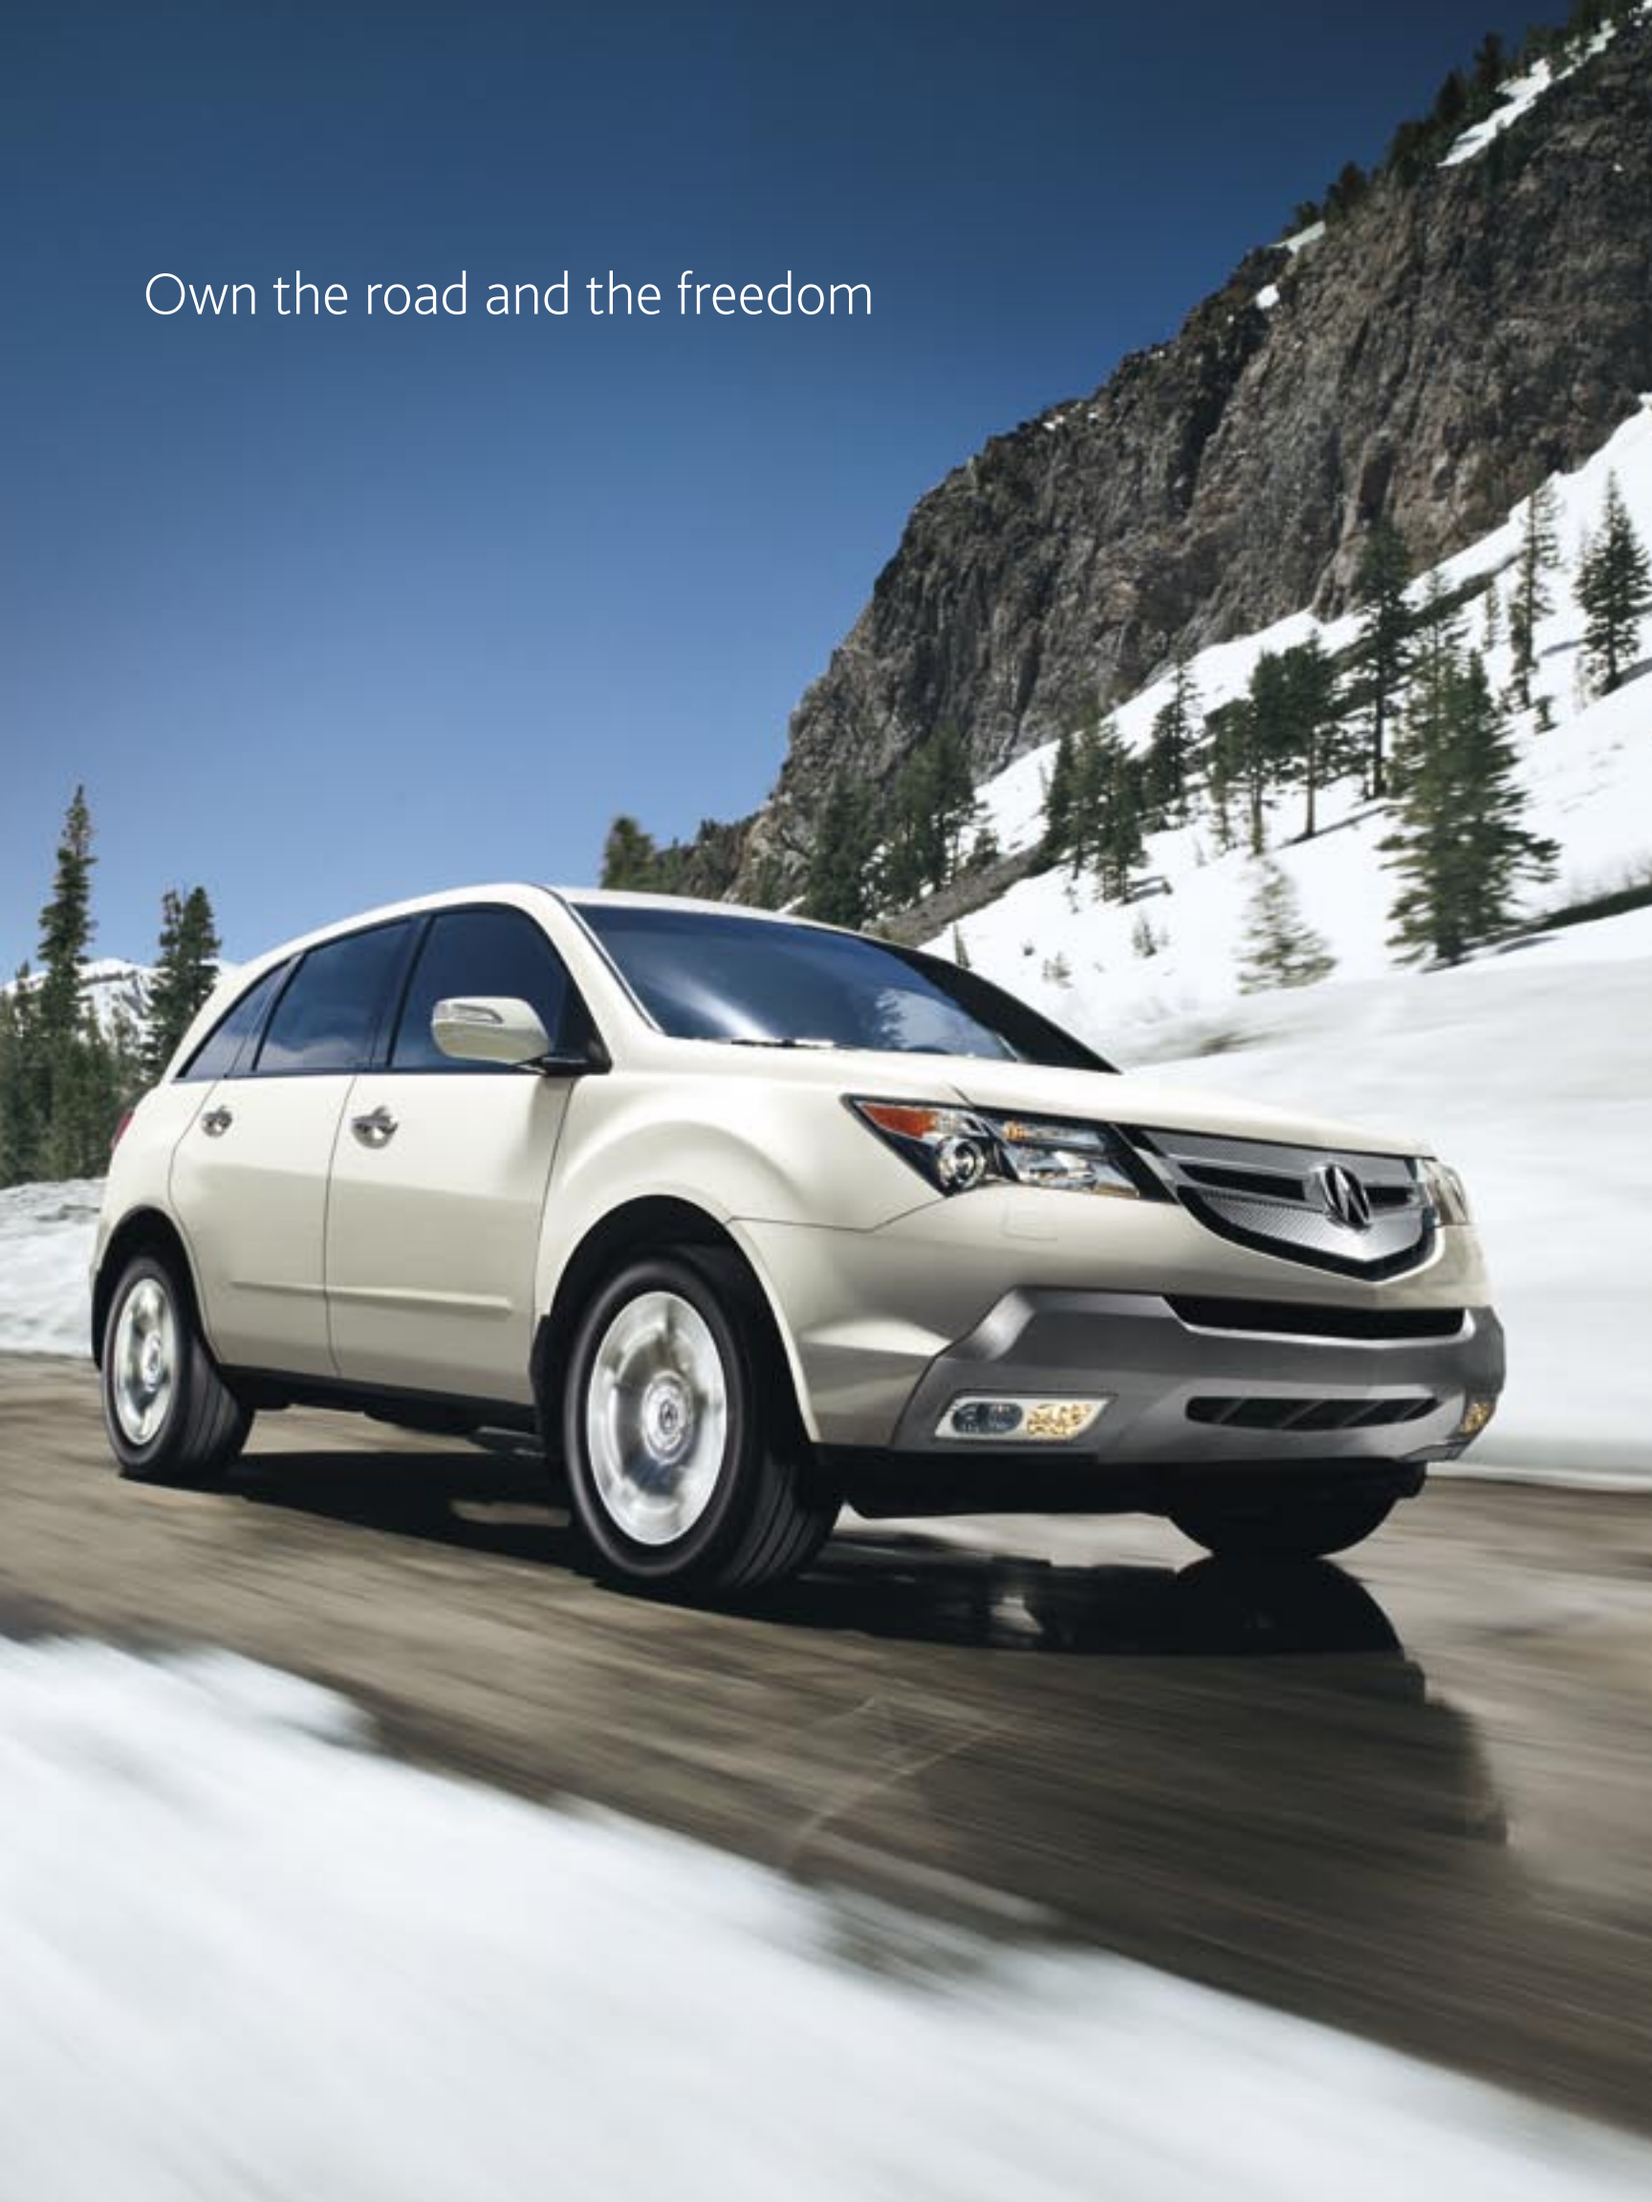
Power is pointless without precision

Introducing the all-new 2007 Acura MDX. Superior race-inspired handling, advanced engineering and integrated driver technology combine to offer you a redesigned sport utility vehicle that rewrites the ground rules.

A modern masterpiece
of meticulously engineered proportions

ACTIVE DAMPER SYSTEM

Track-tested and tuned at Nurburgring, one of the world's most demanding F1® circuits, the MDX's innovative Active Damper System is a true race-inspired suspension system. Available with the MDX Elite Package, the Active Damper System complements the vehicle's fully independent suspension, providing you with a superior feel for the road and an extra boost of driving confidence and exhilaration. Designed to improve overall response and stability, the system changes the suspension damper fluid viscosity in a fraction of a second, based on driving conditions. The result is an increased damping firmness in each wheel, a decrease in body roll and vehicle pitch, and an exceedingly responsive, sportier ride.



Own the road and the freedom

AUTOMATIC TRANSMISSION WITH INTELLIGENT SHIFT CONTROL®

Smooth shifting and precision response is yours courtesy of the 5-speed automatic transmission with Sequential SportShift® mode and Intelligent Shift Control. Based on your driving conditions, electronic sensors ensure precision shifting between gears and optimal engine response by continuously monitoring the power required. Plus, Grade Logic Control helps you find the ideal gear for uphill, downhill or towing scenarios.

4-WHEEL INDEPENDENT SUSPENSION

Enjoy an exceptionally smooth and familiar feel for the road with the MDX's performance 4-wheel independent front and rear suspension. From the crisp response of the MacPherson strut front suspension to the confident flat cornering feel that comes from the multi-link rear suspension with body roll reducing stabilizer trailing arms – the MDX is a dream to drive. Plus, experience added control and response from the variable power-assisted rack-and-pinion steering that enhances your manoeuvrability in tight city scenarios.

HIGH-INTENSITY DISCHARGE HEADLIGHTS (HID)

In an MDX, you have the power to illuminate even the darkest roads with high-powered High-Intensity Discharge low-beam headlights. Producing an intensely brilliant beam of focused light, HID headlights enhance your ability to identify what's ahead. Plus, with built-in headlight washers and available auto-levelling front headlights with the Elite Package, you'll have an incredibly clear long-range outlook.

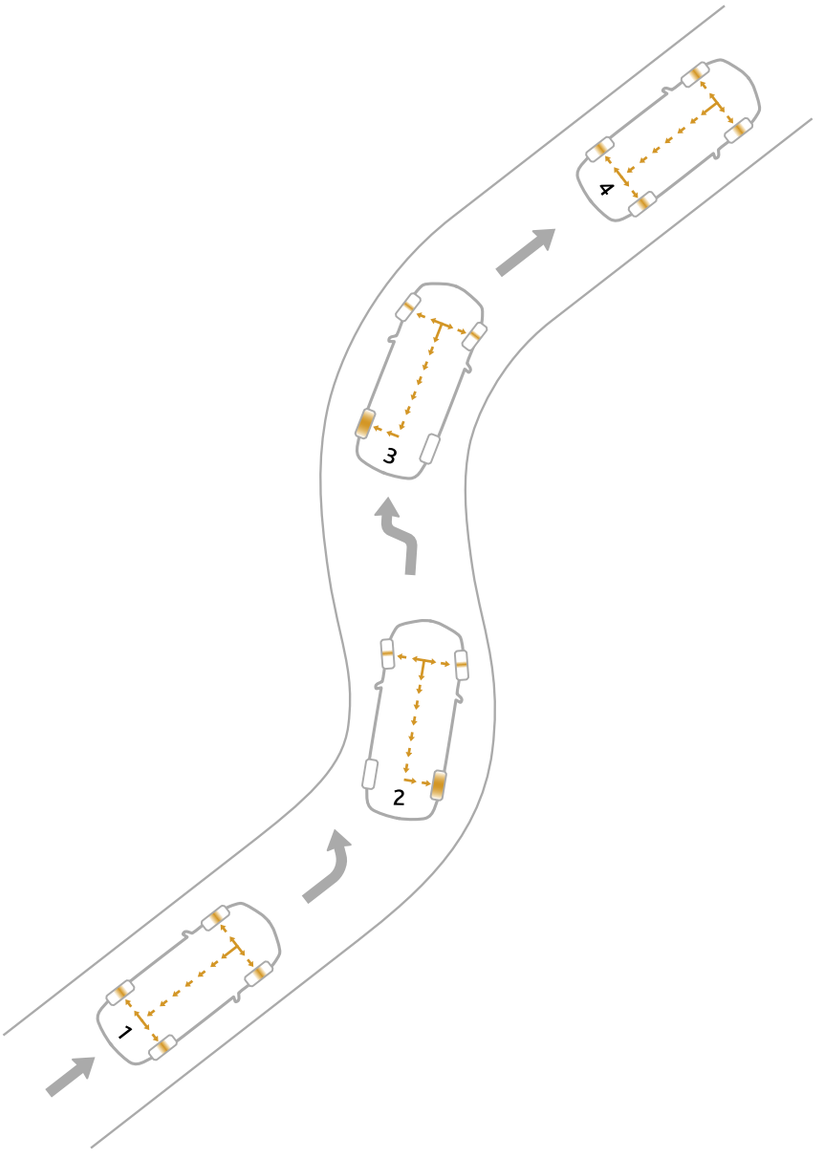
LIGHT EMITTING DIODE (LED) TAILLAMPS

From dawn to dusk, LED taillamps offer a brighter, safer way to let other drivers know you're braking, turning or passing. LED lights are extremely bright, long-lasting and are easier for other drivers to see at a distance, regardless of the outdoor or ambient lighting conditions.

SH-AWD

The closest anyone has come to reinventing the wheel: The groundbreaking Acura Super Handling All-Wheel Drive™ system.

Fine-tuned for the MDX, this exceptionally advanced all-wheel drive technology helps you gain more traction in slippery or snow-covered conditions, and the confidence to carve precision corners in every other condition.



1. **DURING STRAIGHT-LINE ACCELERATION**

   The groundbreaking SH-AWD™ system offers dramatically enhanced traction, control and acceleration in all weather, or loose road conditions. Accelerate and the system directs up to 50% of the engine's torque to the rear wheels to, in turn, deliver full power to the ground.

2. **DURING A MODERATE CORNER**

   SH-AWD delivers a remarkably neutral steering feel as the rear wheels help generate cornering power. Electronic sensors monitor the speed and tightness of the turn, and automatically vary torque to the outside cornering rear wheel, resulting in enhanced stability and driver control.

3. **DURING ACCELERATION THROUGH A CORNER**

   Here the advanced SH-AWD technology stands alone. Like no other system, the outside cornering wheel gets up to 100% of the rear wheel torque and is accelerated to rotate faster than the inside cornering wheel, providing greater turning force and an incredibly stable corner line.

4. **DURING STRAIGHT-LINE CRUISING**

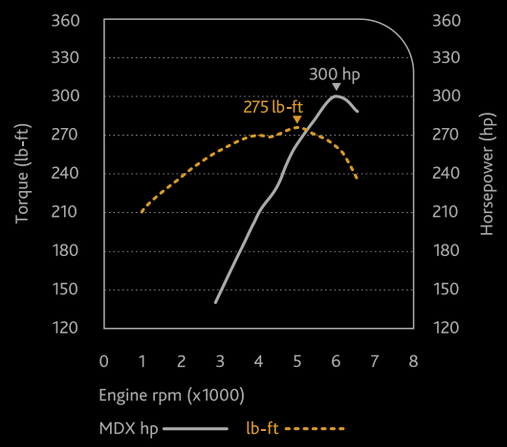
   SH-AWD's sophisticated electronic controls automatically monitor road conditions and alternate torque from front to rear, as well as splitting rear wheel torque from left to right. The end result is a continuously smooth, stable ride, no matter what the road or weather conditions.

3.7L, 24-VALVE VTEC® V-6 ENGINE

In an MDX, driving performance comes to life in the form of a class-leading 3.7-litre, 24-valve VTEC V-6 engine – the most powerful production engine Acura has ever built. From the lightweight aluminum-alloy block and cylinder heads to the computer-controlled Programmed Fuel Injection (PGM-FI®), the VTEC V-6 is compact, exceptionally fuel-efficient and innovative to its spirited core.

HORSEPOWER AND TORQUE

MDX drivers will experience more exhilaration and more strength in numbers than ever before. Producing an awe-inspiring 300 horsepower at 6000 rpm and 275 lb.-ft. of purposeful torque at 5000 rpm, there's a virtually endless supply of power to meet your driving demands. Plus, with the added benefit of the Drive-by-Wire Throttle System™ you can always count on smooth engine response and efficient power delivery. When it comes to pulling power, the MDX is ready, willing and more than capable, with a 5000-pound towing capacity. What's more, the MDX is a low emission vehicle with a Tier 2 Bin 5 rating, which makes it capable of pulling its own weight environmentally.



VARIABLE VALVE TIMING AND LIFT ELECTRONIC CONTROL (VTEC®)

Before race-inspired VTEC engineering, engine tuning was a compromise between balancing low-end torque and high-end power. Utilizing two entirely different camshaft profiles enables VTEC engines to deliver amazingly responsive power across the full rpm range. At low speeds, the engine offers lower valve lift and shorter cam profile opening, resulting in higher fuel velocities and greater low-end torque. But as your demand for speed increases, the engine switches to a cam profile with higher valve lift and longer opening duration, resulting in enhanced airflow and a huge boost in high-end rpm power.

MAINTENANCE MINDER SYSTEM

Instead of following a traditional kilometre-and-calendar maintenance schedule, the MDX instinctively monitors its own service schedule based on your driving habits. This advanced system takes into account engine revolutions, stop-and-go traffic experience and the frequency of short trips to determine when your next service visit should be. What's more, the system also anticipates oil and filter changes, tire rotations and other general maintenance.

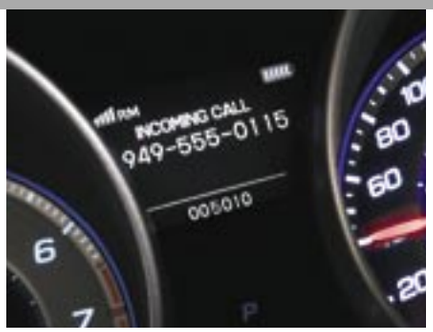
DUAL EXHAUST AND 18-INCH PERFORMANCE WHEELS

The MDX's large diameter, throaty sounding dual-outlet exhaust hints at the powerful presence of a 300 horsepower engine. Plus, the standard 18-inch aluminum-alloy wheels enhance your feel for the road and reinforce the MDX's aggressive style, appearance and performance.

The playground has been redefined

The Acura MDX's technologically advanced driver and passenger amenities present you with an unparalleled next-generation SUV experience without reservation.

Say hello to the future



HANDSFREELINK™ AND BLUETOOTH® ENABLED TECHNOLOGY

Keep in touch without ever having to lift a finger. Program and link your Bluetooth-enabled mobile phone to the MDX's HandsFreeLink telephone interface to make, receive and transfer calls without interruption or having to remove your hands from the steering wheel. Just say the word – and providing your programmed phone is located inside the MDX cabin – calling numbers will be displayed, your phone will respond to voice activation and you will hear the caller's voice over the MDX's audio system. What's more, the system operates in English or French and is capable of seamlessly integrating up to six different compatible phones, turning your MDX into a veritable hub of connectivity.

Bluetooth®

NAVIGATION SYSTEM WITH BILINGUAL VOICE RECOGNITION*

Talk about next-generation convenience. Utilizing satellite-linked GPS technology, the MDX can pinpoint your location almost anywhere in North America or access its search directory to help you find directions to those hard-to-find places. The system is equipped with bilingual voice recognition software and features real-time directions by voice or guiding map display. Simply ask the system to show you the most direct route to your destination, offer an alternate route or, with the Zagat Survey Ratings®, help you find a restaurant based on your choice of cuisine.

PREMIUM ACURA/ELS SURROUND™ SOUND SYSTEM*

Top of the line never sounded so phenomenal. Unlike anything you've ever heard in an SUV, the 410-watt Acura/ELS Surround Premium 10-speaker Sound System produces an incredibly enriched audio quality that rivals most professional recording studios. And with an in-dash 6-disc CD changer, DVD-Audio, AM/FM/XM® tuner, MP3/WMA capability and Dolby Pro Logic II®, you can experience your favourite music using the format of your choice. What's more, with the MDX's standard XM Satellite Radio tuner, you can subscribe to some of the best music the world has to offer, all from the comfort of your MDX cabin.**

ELS SURROUND (XM) SATELLITE RADIO

*Available with the MDX Technology and Elite packages. **Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous United States. See terms and conditions at www.xmradio.ca.

SPORTY LEATHER SEATS

Feel the difference ergonomically sculpted seating makes to your drive. From the two front seats to the comfort of the second row, tightly bolstered sumptuous seating with available premium perforated leather trim lends an air of modern distinction to the look and feel inside the MDX cabin. Adding to the experience is a 10-way power-adjustable driver's seat including power-adjustable lumbar support and an 8-way power-adjustable front seat for the passenger. Plus, there's even a remote-linked 2-position memory system for the driver's seat, steering column, side mirrors, climate control and select audio functions.

DRIVER EXPERIENCE

Smooth, tactile switches are intuitively located for maximum ease of use and driving comfort. Adjust the power tilt and telescoping steering column. Take hold of the leather-wrapped steering wheel with integrated cruise and audio controls. Open the wide power moonroof and revel in the overall abundance of driver-focused comfort and control.

TRI-ZONE AUTOMATIC CLIMATE CONTROL

Optimal cabin comfort is at hand. From cold winter mornings to hot summer nights, the synchronized tri-zone automatic climate control with air-filtration system keeps the driver, front passenger and second row passenger zones all at the desired temperature. And for extra seasonal comfort and luxury, the MDX offers standard heated front seats and heated second-row outboard seats.

ACURA DVD ENTERTAINMENT SYSTEM

Now playing in the MDX Elite Package, is the available Acura DVD Rear Entertainment System. Featuring a 9-inch LCD colour display, integrated remote control and wireless headsets with personal surround sound, passengers can pass the time watching movies or listening to their favourite CDs. Plus, an auxiliary second-row audio/video input jack offers plug-and-play video game capabilities.

Flawless fit and finish for seven

Practically perfect versatility

INNOVATIVE VERSATILITY

Space is never an issue. With so many innovative cargo and seating configurations, everything from golf clubs to groceries will find a home in the MDX. Featuring a 50/50 split flat-folding third-row bench seat and 60/40 split flat-folding second-row seatbacks – versatility abounds. And for securing the occasional larger item, there are four conveniently located cargo area tie-down anchors.

STEALTH STORAGE

To keep your cabin clean and clutter-free, the MDX interior features a myriad of intelligent hidden storage solutions. Up front there is a centre console with a spacious compartment to keep smaller items out of sight. There is also a side storage compartment with a sliding cover. For hiding valuable items, there is a large, lockable glove compartment and a concealed rear cargo well for storage in the back.

AUTOMATIC HUMIDITY CONTROL

Another first for the MDX, the automatic humidity control system utilizes electronic sensors to measure humidity based on cabin conditions. In the event of window-fogging conditions, the MDX compensates before fogging even occurs by automatically activating the heat/defrost mode, adjusting the fan settings and turning the air conditioning on or off.

The Acura Safety Through Innovation philosophy is the idea that an enhanced driving experience starts with the most advanced safety features. The proof is in the comprehensive standard driver and passenger safety measures and exceptional technologies applied to all Acura vehicles.

COOPERATIVE VSA WITH TRACTION CONTROL

AIRBAGS

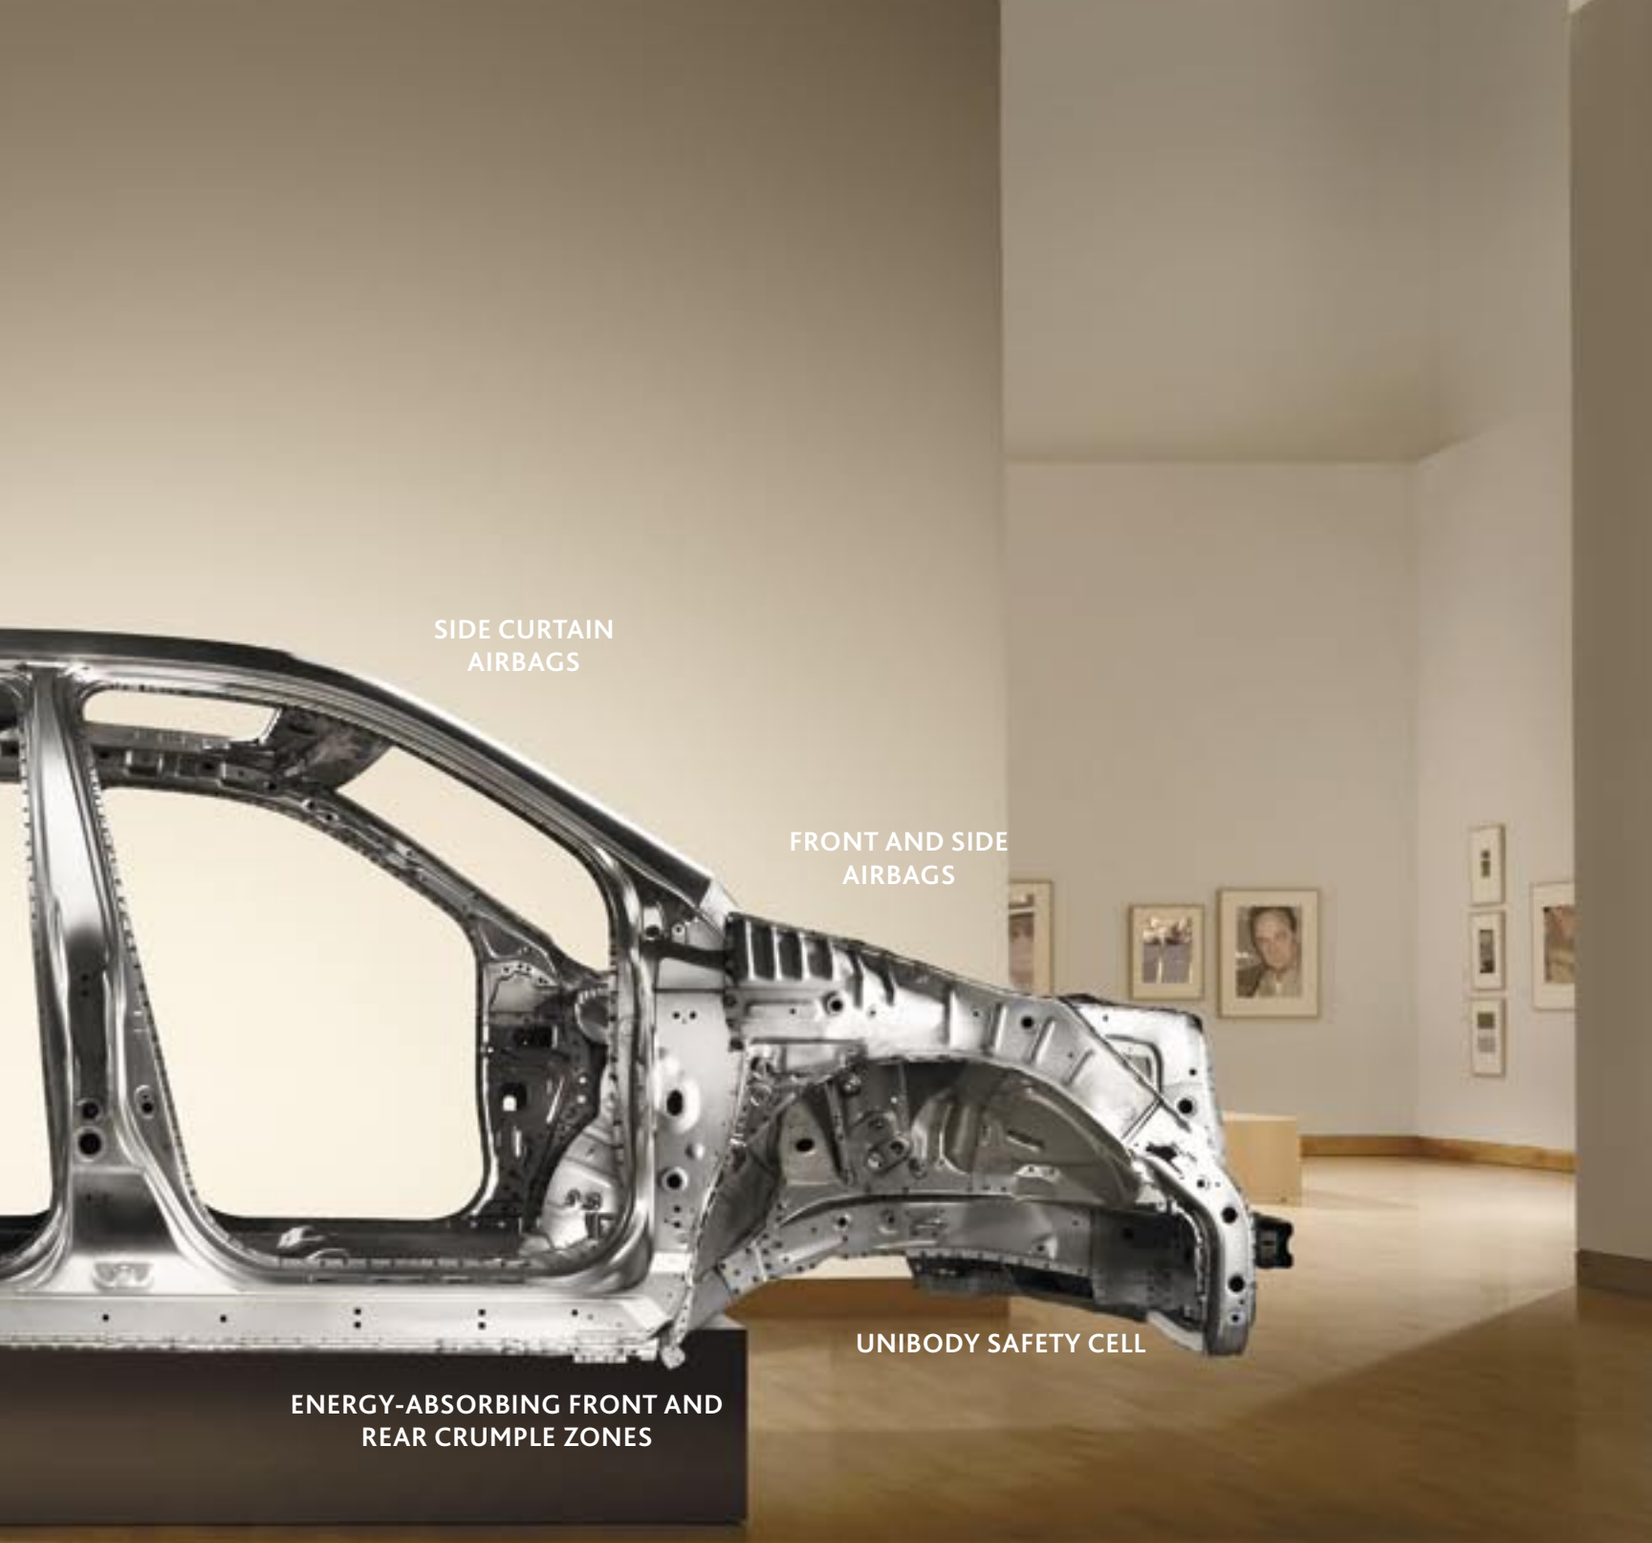
Maximum safety is achieved with six airbags designed to protect all occupants inside the cabin. Depending on the point and force of impact, the MDX will deploy: dual-stage, dual-threshold front airbags that activate at one of two rates depending on the degree of impact; front side airbags with the innovative passenger-side Occupant Position Detection System that will not release if the system detects a small-sized or improperly positioned passenger; and side curtain airbags with state-of-the-art rollover sensors. Plus, for the driver and passenger, active head restraints provide excellent neck protection in case of rear impact.

ABS

The Anti-lock Braking System (ABS) helps maintain steering control when braking hard on wet, slippery or loose surfaces, while Electronic Brake Distribution (EBD) balances braking forces at each wheel to help compensate for cargo and passenger weight distribution inside the cabin. Plus, there is Brake Assist feature that senses a panic stop and applies maximum braking power to help you stop quickly.

TIRE PRESSURE

Correct tire pressure is critical to safety, performance and fuel efficiency. Enter the MDX's Tire Pressure Monitoring System (TPMS) that continually monitors the air pressure in each tire. If pressure drops in any of your tires, a transponder attached to the wheel's valve stem transmits the information to a receiver and a warning appears on your instrument panel, indicating which tire requires attention.



REARVIEW CAMERA*

The MDX's available rearview camera displays a colour image on the navigation-system screen of the area directly behind the vehicle. Even if the navigation system is turned off, the camera is activated automatically when you engage reverse, giving you a clear picture of what is behind you.

ADVANCED COMPATIBILITY ENGINEERING™ (ACE™)

The innovative Advanced Compatibility Engineering (ACE) body structure adopts a high-tensile, high-efficiency steel body structure to provide enhanced protection from multi-directional collision. ACE reduces the concentrated force of a frontal impact by absorbing energy over a large area and dispersing it away from the occupants inside the cabin. Additionally, ACE is designed to help reduce occupant injuries caused by misalignment in collisions between vehicles of different sizes.

COOPERATIVE VSA WITH TRACTION CONTROL

The advanced cooperative Vehicle Stability Assist® system with Traction Control will automatically detect and correct understeer or oversteer situations, sometimes before you're even aware there's a problem. The system intuitively analyzes the conditions and then reduces throttle and/or applies braking to individual wheels. Should a loss of traction occur on a slippery surface, Traction Control will help compensate to get you safely underway.

*Available with the MDX Technology and Elite packages.

SPECIFICATIONS

ENGINE

Engine	3.7-litre, 24-valve, SOHC VTEC® V-6
Displacement	3664 cc
Horsepower	300 hp @ 6000 rpm
Torque	275 lb.-ft. @ 5000 rpm
Redline	6500 rpm
Emissions	Tier 2 Bin 5
Drive-by-Wire Throttle System™	
Recommended fuel	Premium
Compression ratio	11.0:1
Bore and stroke	90mm x 96mm

Horsepower (SAE net Rev 8/04, SAE J1349) , Torque (SAE net Rev 8/04, SAE J1349)

DRIVETRAIN

- 5-speed automatic transmission with Intelligent Shift Control®
- Sequential SportShift® mode
- Super Handling All-Wheel Drive™ (SH-AWD™)
- Towing capacity: 5000 lbs.

CHASSIS

- 18" aluminum-alloy wheels
- All-season tires: P255/55 R18
- MacPherson strut front suspension
- Multi-link independent rear suspension
- Power-assisted, ventilated front disc/solid rear disc brakes
- Pre-wired for trailer connection (4/7 pin) and trailer brake
- Variable power-assisted rack-and-pinion steering

SAFETY

- 3-point height-adjustable seat belts with front pretensioners
- 3-point rear centre seat belt
- 4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) and Brake Assist
- Active front seat head restraints
- Advanced Compatibility Engineering™ (ACE™) body structure
- Child-proof rear door locks
- Cooperative Vehicle Stability Assist (VSA®) with Traction Control
- Dual-stage, dual-threshold front airbags (SRS)
- Front side airbags with passenger-side Occupant Position Detection System (OPDS)
- Immobilizer Theft-Deterrent System
- Lower Anchors and Tethers for Children LATCH positions in 2nd row (3)
- Three-row side curtain airbags with rollover sensor
- Tire Pressure Monitoring System (TPMS) with location and pressure indicators
- Trailer Stability Assist™

EXTERIOR

- Body-coloured folding side mirrors with integrated turn indicators
- Chrome door handles
- Dual-outlet exhaust
- Fog lights
- Front/rear splash guards
- Headlight washers
- High-Intensity Discharge (HID) low-beam headlights
- Intermittent rear window wiper/washer
- Light emitting diode (LED) taillamps
- Power heated side mirrors with reverse gear tilt-down
- Power moonroof with tilt feature and auto open/close
- Rear roofline spoiler with integrated brakelight
- Rear window defroster
- Tinted glass

CAPACITIES

Cargo volume – 2nd and 3rd rows folded	2364 litres
Passenger volume	4026 litres
Windshield washer fluid tank	5.8 litres
Fuel tank	79.5 litres

FUEL ECONOMY

City	13.8 litres/100km†
Highway	10.0 litres/100km†

† Use mileage for comparison purposes only. Your mileage may vary.

TECHNOLOGY PACKAGE

410-watt Acura/ELS Surround™ Premium Sound System with in-dash 6-disc CD changer, DVD-Audio, AM/FM/XM** tuner, MP3/WMA capability, DTS®, Dolby Pro Logic II® and 10 speakers including subwoofer

Acura Navigation System with bilingual Voice Recognition and rearview camera

Premium perforated leather-trimmed interior

ELITE PACKAGE

Includes Technology Package plus:

115-volt power outlet

Exclusive alloy wheel design

Auto-levelling front headlamps

Active Damper System

Acura DVD Rear Entertainment System with 9-inch display, integrated remote control and wireless headsets with personal surround sound

Power tailgate

Roof rails

COMFORT AND CONVENIENCE

- 12-volt power outlets (3)*
- 2nd-row folding centre armrest with beverage holders
- 2nd-row overhead map lights (2)
- Ambient cabin lighting
- Automatic day/night rearview mirror
- Cargo area tie-down anchors (4)
- Centre console with storage compartment
- Courtesy lights
- Date, time, compass information in sub-display
- Door-pocket storage bins
- Driver's and front passenger's illuminated vanity mirrors
- Exterior temperature indicator
- Front beverage holders (2) with retractable cover
- HandsFreeLink™ – Bluetooth® wireless telephone interface
- HomeLink®
- Light emitting diode (LED) backlit gauges with progressive illumination
- Maintenance Minder system
- Multi-Information Display (MID)
- Power tilt and telescoping steering column
- Power windows with driver's and front passenger's auto-up/down
- Rear storage well in cargo area
- Remote entry system
- Remote-linked 2-position memory system for driver's seat, steering column, side mirrors, climate control and select audio functions
- Speed sensitive volume compensation (SVC)
- Steering wheel-mounted cruise control buttons
- Sunglasses holder
- Tri-zone front/rear synchronized automatic climate control with humidity control and air-filtration system

ENTERTAINMENT

- 253-watt audio system with in-dash 6-disc CD changer, AM/FM/XM** tuner, MP3/WMA capability and 8 speakers including subwoofer
- MP3/auxiliary input jack
- Integrated antenna
- XM Satellite Radio**

SEATING & TRIM

- 50/50 split flat-folding 3rd-row bench seat
- 60/40 split flat-folding 2nd-row bench seat
- Driver's 8-way power-adjustable seat
- Driver's seat with power-adjustable lumbar support
- Front passenger's 8-way power adjustment seat
- Heated seats in first and second row outboard positions
- Leather-trimmed interior
- Leather-wrapped steering wheel and shift knob

EXTERIOR DIMENSIONS

Approach/breakover/departure angle	27.4/16.4/17.4 °
Curb weight – MDX/Technology/Elite	2064/2069/2093 kg
Ground clearance	207 mm
Height – MDX/Technology/Elite	1733/1733/1753 mm
Length	4844 mm
Track – front/rear	1720/1715 mm
Turning diameter curb-to-curb	5.72 m
Wheelbase	2750 mm
Width – mirrors/no mirrors	2238/1994 mm

INTERIOR DIMENSIONS

Headroom – 1st/2nd/3rd row	994/980/906 mm
Hiproom – 1st/2nd/3rd row	1498/1502/1089 mm
Legroom – 1st/2nd/3rd row	1047/983/740 mm

* (2) on Elite Package

** Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous United States. See terms and conditions at www.xmradio.ca.

The Acura Experience. At Acura, we believe owning a luxury vehicle goes well beyond the engineering and amenities. That's why we are equally committed to making your ownership experience a luxurious one. So, every new Acura comes with: 24-hour Roadside Assistance for the first four years of ownership, which includes our Dispatch Emergency Roadside Service, Emergency Lockout Service, Traffic Accident Services and more. Complimentary tank of gas at time of delivery. See your Acura retailer for details.

WARRANTY

Your new Acura vehicle comes with the following warranties: • Major Component – 5-year/100,000-km limited warranty • Vehicle – 4-year/80,000-km Distributor's limited warranty • Rust Perforation – 5-year unlimited-distance warranty • Surface Corrosion – 4-year/80,000-km • Accessories – 4-year/80,000-km limited warranty (when installed by an authorized Acura retailer at time of new vehicle delivery). Regular maintenance items and parts are subject to normal wear and replacement, and are not covered by warranty. Certain other items are excluded, and certain conditions apply. See your Acura retailer for complete details.

ACURA PLUS

As a new Acura owner, you can help to prolong your worry-free ownership experience by purchasing additional coverage. Just choose from our flexible selection of Mechanical Coverage that extends up to 7 years or 160,000 km, whichever comes first. You can also extend your Roadside Assistance. Ask your Acura retailer for full details.

LEASING AND FINANCING

We offer an array of options to make owning an Acura easy. Ask your Acura retailer for complete details on: Acura Leadership Leasing*, Acura Future Value Financing* and Conventional Financing*.

*A genuine service of Honda Canada Finance Inc. Conditions, restrictions and pre-payment requirements might apply O.A.C. "Acura Future Value Financing" does not apply in the province of Quebec.
